

About TCS CBO:

In the world of Business 4.0, enterprises seek to achieve exponential business value by streamlining their business operations. Customer expectations are changing and businesses grapple with challenges like siloed business operations, too much data and too little insight, increasing customer expectations, need for stronger focus on business outcome and delivering "Everything As A Service".

TCS' Cognitive Business Operations (CBO) provides an integrated service across Business Process and IT Infrastructure leveraging Cognitive technologies, Automation, IoT, Cloud and Agile practices to help enterprises reimagine business operations and deliver superior outcomes.

CBO leverages TCS' proprietary Machine First Delivery Model™ (MFD™) and Ignio™ enabled by the "Sense-Think-Execute-Learn-Enrich" framework to drive automation and derive Insights. TCS CBO helps enterprises achieve exponential business value, embrace risk, enhance customer experience through hyper-personalization while leveraging the wider partner ecosystem.
