The primary objective of the initiative was to promote environmental awareness and contribute to the greening of the community by distributing free saplings to residents.</p> <p>The event began with an informative session where Mrs. Ghosh and Mrs. Bagchi highlighted the importance of trees in combating climate change, improving air quality, and enhancing urban biodiversity. They also educated participants on proper tree-planting techniques and the long-term care required to ensure the saplings' growth and survival. This educational aspect was crucial in fostering a sense of responsibility and encouraging sustainable practices among the community members.</p> <p>Following the educational session, the distribution of saplings commenced. Various species of trees, chosen for their adaptability to the local environment and ecological benefits, were handed out to enthusiastic residents. The saplings included fruit-bearing trees, flowering plants, and native species that would support local wildlife. The choice of diverse tree species aimed to create a balanced ecosystem and provide multiple benefits such as shade, fruit, and aesthetic value to the urban landscape.</p>
