

Teaching Learning Method: Department of Mathematics & Statistics

Use of ICT and interactive session:

- This modern tool (ICT) in the form of smartboard can be used to write, erase, edit numerical problems . One can also present a slide or pdf document using this tool.
- Regular question answer session in class in the form of quiz
- Encouraging students to raise questions to clear their doubts

Attachment with other Departments:

Along with B.Sc Course(General) in Mathematics & Statistics, some papers in B.Com is also taught. The Calcutta University introduced CBCS (Choice Based Credit System) for both the courses which was implemented in the College from the academic session 2018-2019. Henceforth the topics taught and allotted hours are given in the following table.
