| B. A. General | 53 | | | 1.89 | 60.38 | 62.27 | |

2.12 How does IQAC Contribute/Monitor/Evaluate the Teaching & Learning processes :

Though, in 2011-12, IQAC was not able to contribute/monitor or evaluate the teaching learning process as it started functioning late in 2011, IQAC asked the departments to assess their students input and devise methods to complete their syllabus effectively, plan remedial courses. As a part of monitoring, progress and completion status of syllabus according to the academic calendar are periodically looked into. A process of departmental students' feedback was introduced to evaluate the entire teaching learning process.

.

2.13 Initiatives undertaken towards faculty development

| Faculty / Staff Development Programmes | Number of faculty benefitted |
|--|---------------------------------|
| Refresher courses | |
| UGC – Faculty Improvement Programme | 1 |
| HRD programmes | |
| Orientation programmes | |
| Faculty exchange programme | |
| Staff training conducted by the university | |
| Staff training conducted by other institutions | |
| Summer / Winter schools, Workshops, etc. | |
| Others | |

2.14 Details of Administrative and Technical staff

| Category | Number of Permanent Employees | Number of Vacant Positions | Number of permanent positions filled during the Year | Number of positions filled temporarily |
|----------------------|-------------------------------------|----------------------------------|---|--|
| Administrative Staff | 17 | 3 | 0 | 23 |
| Technical Staff | 3 | 1 | 0 | |

5. Student Support and Progression

5.1 Contribution of IQAC in enhancing awareness about Student Support Services

Nothing in Particular

5.2 Efforts made by the institution for tracking the progression

Usually, students do not need to report their progression. For small departments, B.A./B.Sc (Hons), teachers keep personal relationship, so the progression can be estimated. But for commerce, such method is not possible. As such in 2011-12 no formal method was there.

6. Governance, Leadership and Management

6.1 State the Vision and Mission of the institution

Vision:

"Plants are shaped by cultivation and men by education. .. We are born weak, we need strength; we are born totally unprovided, we need aid; we are born stupid, we need judgment. Everything we do not have at our birth and which we need when we are grown is given us by education." – Jean Jacques Rousseau.

Vision of Herambachandra College is to become a dynamic and vibrant institution of excellence in higher education that continually thrives by responding to changing social realities through the advancement and application of knowledge and wisdom, to create a human-centred, ecologically sustainable and equitable world that encourages and defends dignity, equal opportunity, social justice and human rights for all.

Mission:

Mission of Herambachandra College is to impart quality education by providing all students, irrespective of caste, creed, religion or economic standing with opportunities to acquire knowledge; assist them in preparing adequately for the academic courses and future career paths they opt for; inculcate values that promote mutual understanding among people and communities; provide the students with opportunities to develop mentally and physically and become capable of facing the challenges thrown up by the complexities of the modern world; to guide the students, who come to the college right at the beginning of their adulthood, in developing the capability of making suitable decisions for their careers and future life; help the students to strike the right balance between decisions about their future and caring for the society and the environment surrounding them.

6.2 Does the Institution has a management Information System

Yes, not a mechanised one.

6.3 Quality improvement strategies adopted by the institution for each of the following:

6.3.1 Curriculum Development

Nothing in Particular

6.3.2 Teaching and Learning

Nothing in Particular

6.3.3 Examination and Evaluation

Nothing in Particular

6.3.4 Research and Development

Nothing in Particular

6.3.5 Library, ICT and physical infrastructure / instrumentation

Nothing in Particular

6.3.6 Human Resource Management

Nothing in Particular

6.3.7 Faculty and Staff recruitment

Nothing in Particular

6.3.8 Industry Interaction / Collaboration

Nothing in Particular

6.3.9 Admission of Students

Online generation of enrolment forms by the selected students.

| 6.4 Welfare schemes for | Teaching | 0 |
|---------------------------|--------------|---|
| of the online senemes for | Non teaching | 0 |
| | Students | 0 |
| | | |

6.5 Total corpus fund generated

63.53 Lakh

6.6 Whether annual financial audit has been done

Yes Y No

6.7 Whether Academic and Administrative Audit (AAA) has been done?

| Audit Type | External | | Inter | mal |
|----------------|---------------|--|--------|-----------|
| | Yes/No Agency | | Yes/No | Authority |
| Academic | NO | | NO | |
| Administrative | NO | | NO | |

6.8 Does the University/ Autonomous College declares results within 30 days?

For UG Programmes

| V | | |
|-----|----|--|
| Yes | No | |

For PG Programmes

No

6.9 What efforts are made by the University/ Autonomous College for Examination Reforms?

6.10 What efforts are made by the University to promote autonomy in the affiliated/constituent colleges?

Yes

6.11 Activities and support from the Alumni Association

Nothing in Particular

6.12 Activities and support from the Parent - Teacher Association

Nothing in Particular

6.13 Development programmes for support staff

Nothing in Particular

6.14 Initiatives taken by the institution to make the campus eco-friendly

Nothing in Particular

7. Innovations and Best Practices

- 7.1 Innovations introduced during this academic year which have created a positive impact on the functioning of the institution. Give details.
 - 1. Students' Union Constitution
 - 2. Improved process of Online admission
- 7.2 Provide the Action Taken Report (ATR) based on the plan of action decided upon at the beginning of the year

Nothing in particular

7.3 Give two Best Practices of the institution (please see the format in the NAAC Self-study Manuals)

1. Online admission; Compulsory online admission was started in West Bengal in the year 2015, whereas in our institution it was in vogue from the year 2007

2. Students' Union Constitution; In West Bengal, attendance as a criterion for contesting union election was not prevalent in any college as such. We drafted Students' Union Constitution on that line.

*Provide the details in annexure (annexure need to be numbered as i, ii,iii)

7.4 Contribution to environmental awareness / protection

| Nothing in particular | | |
|--|-----|------|
| | | |
| Whether environmental audit was conducted? | Yes | No N |

7.5

7.6 Any other relevant information the institution wishes to add. (for example SWOT Analysis)

- 1. Strength of the college is its fame about Commerce education.
- 2. A) Weakness is that too. A huge number of students aspire to take admission in the College. It admits a little less than thousand students in commerce. but according to government norms only 6 full time teachers can be appointed. Had that been so the student teacher ratio in the Commerce department would be 450:1 as we teach 2700 students in a session. As a result considerable number of part time and guest faculties at a very low remuneration is appointed. obviously those teachers do not have adequate incentive.

B) Furthermore, the college does not have enough space to accommodate approximately 3300 students. As a matter of fact, for each student less than 10 sq. ft. space is available. This makes difficult the teaching learning process. no new course can be opened. hiring space is also astronomically costly which will be unbearable for the students.

- 3. The College is centrally located, we get numerous good students. finance is not a constraint.
- 4. The College requires space in nearby locality. Teacher student ratio in commerce is to be reduced. In an electronically improvised academic environment we require computer literate teachers and computer oriented curriculum.

8. Plans of institution for next year

- 1. Finalisation of Students' Union Constitution.
- 2. Holding additional classes during vacation for compensating class losses during University examination
- 3. Remedial classes for slow learner after test examination and during 3.30 to 5pm.
- 4. Introduction of attractive method of teaching learning
- 5. Organising interdepartmental lectures
- 6. Organising Departmnetal seminars

Annexure II Best Practices

BEST PRACTICE I

Title: "Online Admission" Process.

Goal: The goal and objective of the college was to:

1. Remove the difficulties of the students/guardians in collecting forms and submission of those in the time of admission.

2. The college authorities were concerned to stick to a fair and transparent admission process, where all applicants would be equally dealt with and admission will be made on the basis of marks secured in the school leaving examinations.

3. The college also wanted to emphasize on environment friendly admission process where unnecessary wastage of papers were avoided.

Context: Online admission was started early in 2007 in this college. The application forms were received online. The lists were published online but the students were needed to get the enrollment forms queuing up before the college counter. As the college used to face tremendous problems due to high demand ratio because for collection of forms, students used to queue up overnight in front of the college resulting in rise of intermediaries and coercion of the intending applicants online admission went a long way to eradicate that problem.

In the above mentioned process merit lists were published online but students, who were issued forms against those lists, were to collect enrollment forms manually by queuing up before the college counter. This also created a situation of commotion and interference by others. So, the college wanted to do away with such manual issue and collection of enrollment forms.

The Practice: Herambachandra College stands out as one of the rare institutions to make such a successful experiment in the sphere of admission process. The college started online process in 2007 and improvised it this year. It is worthwhile to note that admission through online (mainly application receiving and publication of merit lists) was made compulsory in 2015 by the Government of West Bengal. Whereas, Herambachandra college took a pioneering initiative eight years before.

The online process of admission was out-sourced from Webtech Softwares, who had been dealing with the same from 2007. Continuous improvisations were needed to make the process applicants friendly and hassle free. From 2007 onwards not much modification in the process was made.

In this academic year (2011 – 2012), the admission process of the college was further improvised to help the applicants. Starting from the distribution of forms to issue of the enrollment forms was entirely online. Even the collection of fees during admission was conducted through Indian Overseas Bank, situated across the city of Kolkata.

The students are asked to collect the enrollment forms online once they were selected.

Those whose names were published in the selected merit lists, were allowed to download those enrollment forms from the admission website <u>www.herambachandraadmissions.com</u> by filling in their dates of birth and marks in English. These checks had been made mandatory so that strangers did not get details of the selected applicants and secondly all applicants would have to pass English in West Bengal to qualify for college admissions.

The online system led to a hassle free admission process. At the same time, it was an ecofriendly practice, as it could avoid unnecessary wastage of papers, inks and human labour.

Evidence of Success: The practice proved satisfactory to the students, teachers as well as to the members of non-teaching staff. In fact, not a single instance of student unrest or guardians' agitation took place. The practice gave a message to the people of the locality that the institution attributes much importance to transparency and fairness. It was also a hassle free admission process. In fact, admission system requires an interaction with the outsiders. But this year due to online process, the teaching and non-teaching staff did not face any hazards as the rules and regulations for the admissions were displayed in the college website.

As a consequence of such a transparent and fair practice, the college was able to admit students without any bias.

Problems Encountered & Resources Required: Though the college is located in a urban area, many students come from rural and semi urban background. There was an apprehension whether students coming from rural areas would suffer from an initial psychological barrier in using the internet in time of filling up of the forms. But the apprehension did not come true as the number of applicants did not decline in any course. However, a small section of students from remote areas faced problems related to internet access, were helped by the college authorities. The college had to open a help desk, supervised by senior teachers.

One of the problems faced by the students that they had to pay a hefty sum to cyber café and the intermediaries to fill in and downloading the forms. Information regarding admission could not be communicated to them properly resulting in exploitation by intermediaries.

Notes: The college believes that a centralized university level admission will go a long way to do away with admission related manipulations. Also substantial information provision through media provided centrally by the university and the government will beneficial for the students.

BEST PRACTICE II

Title: Finalisation of Students' Union Constitution.

Goal: The goal and objective of the college was to:

1. Introduce a constitution for election, operations and effectiveness of the students' union of the college.

2. Give up outside interference in the operation of the students' union of the college.

3. Establish a system where the students' union would be run by regular students of the college who are regular in attendance too.

4. Follow Lyngdoh committee recommendation as far as practicable.

Context: Operation and activity of Students' Union in India in general and in West Bengal in particular is a contentious issue. Because of wide spread hooliganism seen at the time of Students' Union elections and controlling of the union by outsiders, Students' Union is seen as a devil and not as a co-operator in college operations.

The college believes that Students' Union is a part and parcel of the college. Communications to students need to be made continuously for effective college operation. It is not possible to convey important messages individually to more than 3000 students, for which students' representatives are pre-requisite. Students' Union act as an important bridge between students and the college.

So, the college requires an operational guideline to elect students' representatives in a democratic manner and to manage students' activities in a creative method. These guidelines are framed in the Herambachandra College Students' Union constitution, drafting of which took place during 2011-12.

The Practice: Herambachandra College stands out as one of the rare institutions to make such a successful experiment in the sphere of Students' Union activity. Drafting of the Students' Union constitution was started under the guidance of the Governing Body of the College. The College permits different students' organizations to open their units in the college. Usually those organizations are followers of different political parties in West Bengal. As a result outside political influence in the Students' Union of the colleges in West Bengal is almost a rule rather than an exception.

In this college, Students' Union election is based on individual nominations without mention of any name of the organization to which the students belong. As a result no students' organization could claim to hold the union as theirs. But in reality the organization which controls the majority of the elected representatives claim to hold the union. In most of the cases, it is found that the representatives hardly attend classes. Thus the students are not represented by attending representatives. So, regular students interest is not served. The students' union constitution drafted by the college emphasizes on this and introduced a clause where regular students attending less than 50% of the classed would not be allowed to contest elections.

Secondly as there were no rules and regulations for the operation of the students' union and there was no earmarked responsibility and authority of the office bearers of the students' union the college needed a students' union constitution to spell out those authority and responsibility.

Moreover, the Students' Union inserted a clause by which online method can be followed at any level, wherever feasible, of the election like issue and receipt of nomination forms, or scrutiny thereof, or publication of results and lists.

The college drafted a students' union constitution on those lines and incorporated as much democratic norms as possible in it.

Evidence of Success: The practice proved satisfactory to the students, teachers as well as to the members of non-teaching staff. In fact, not a single instance of student unrest over students' union election in our college took place once we drafted the Students' Union constitution. The practice gave a message that the institution attributes much importance to transparency and fairness in election and operation of the Students' Union. It was also a hassle free election process. In fact, election system previously was prone to interference of the outsiders, which could be done away with. Teaching and non-teaching staff did not face any hazards as the rules and regulations for the elections and constitution were displayed in the college website.

As a consequence of such a transparent and fair practice, the college was able to elect students without any hassle..

Problems Encountered & Resources Required: Though the college has introduced attendance norms for being eligible to be elected as a representative, the attendance of the students did not improve. Instead some classes remained unrepresented as no students fulfilling the attendance norms were interested in getting elected.

Moreover, in West Bengal, it is observed, that no students' organizations other than followers of the ruling party continue their units in the Colleges. As a result, however democratic the constitution may be, elections get uncontested.

If online election, including online voting, could be introduced, the election would become hassle free, fair and transparent.

Notes: The College believes that transparent fair and democratic election of students representative will go a long way to build a beautiful academic environment. And that could be achieved if a concerted effort by all the colleges together be undertaken.
